#392 Name: **Gakona Junction** Cause: Human Admin: PRI

Narrative: A complaint by a local resident alerted State Forestry of a permitted burn that was out of compliance. A landowner was burning trash in the open and had an inadequate fuel break. The pile was extinguished by Forestry, including a 0.1 acre area of grass. The landowner was given a verbal warning, explaining the necessity of adhering to general burn permit stipulations, which allow for the burning of woody debris only. The landowner was also reminded that under a general burn permit a 15' mineral soil break is required around piles, even with sufficient tools and water available on site to control the fire.
